

Standard Bounce (SB)

Turf: MODERATE
Sand: MEDIUM
Swing: STANDARD
Divot: MODERATE

Low Bounce (LB)

Turf: FIRM
Sand: FIRM
Swing: SWEEP/SHALLOW
Divot: SHALLOW

High Bounce (HB)

Turf: SOFT
Sand: SOFT
Swing: STEEP
Divot: DEEP

“Wedges that are hand-ground lend themselves to inconsistencies from wedge to wedge, especially when mass produced. Our new Milled Grind wedges use advanced milling techniques to ensure precision where it matters most. Based on feedback from TOUR players, we created three uniquely milled grinds for all types of swings and turf conditions.

PAUL DEMKOWSKI
EXPERT ENGINEER
IRONS & WEDGES

THREE GRINDS. MILLED TO PERFECTION.

- ▶ CNC machined sole geometry and a precise leading edge promote consistent turf interaction
- ▶ New ZTP-17 groove features steeper side walls and sharper edge radius for maximum spin
- ▶ Precision Weight Port moves 10g for an optimal CG location, providing a lower launch angle and increased spin rate
- ▶ 8620 carbon steel for soft feel
