TECH

rac TP MB *Superior Feel, Control and Playability*

The rac™ MB TP is a refreshing new take on the classic muscle-back blade. Designed with input and feedback from TaylorMade tour professionals, these irons employ: 1) advanced rac™ technology, characterized by larger Feel Pockets, for a softer and more satisfying feel. 2) Milled clubface and grooves for consistent spin and control. 3) Tour-configured sole that prevents digging and glides smoothly through and out of the turf. 4) Tour Satin finish that's buffed, nickel chrome plated and satin polished again for both beauty and durability.
