

It's no secret that high launch and low spin maximize driver distance, but some players think that only TOUR pros can benefit from lofting up. This is simply not true. By lofting up, you can generate serious distance gains regardless of swing speed with SLDR S, which has low and forward CG properties, along with a sliding weight that assists shot shape.

## SLDR Distance For All

- ▶ Stunning modern-classic shape with satin silver crown and black button-back for easy alignment.
- ▶ Low-Forward CG promotes high launch, fast ball speed and low spin for exceptional distance.
- ▶ Easy and intuitive SLDR sliding weight promotes up to 30 yards of shot shape adjustment.
- ▶ Fujikura Speeder 57 shaft blends light weight with great feel and playability.

“ Golfers were asking for an SLDR fairway that has a lower and more forgiving profile. The SLDR S fairway has a shallower face and larger head size engineered to deliver distance and playability. Combine that with a stunning satin silver crown with black button back for easy alignment and you have a club that inspires confidence and great results.
