

Designing the perfect set for women requires full understanding of the launch conditions they produce and visual cues they prefer. In Kalea we have created a unique product designed to optimize distance, trajectory and playability with a modern, stylish look to match.

## TOMO BYSTEDT

DIRECTOR PRODUCT CREATION - IRONS

## A NEW LEVEL OF STYLISH PERFORMANCE

## **TECHNOLOGY FEATURES**

- · Individual coordination of design, weight, length, and loft for each club results in optimized gapping between clubs
- Low, deep center of gravity makes it easier to get the ball in the air
- Slimtech shafts and Speed Pocket Technology on the soles of the clubs provide higher launch angle and spin rate, resulting in longer carry with maximum distance
