

Unites legendary Burner® speed with next generation Dual Crown technology

FEATURE	ADVANTAGE	BENEFIT
Next generation Dual Crown technology	Lower CG location	High launch and low spin for more distance
SuperFast TP .335 shaft	RE*AX® construction weighing just 65 grams and measuring 45 ¾ inches	Explosive swing speed to promote increased distance
Super-stable high-MOI head design with Inverted Cone technology	Extreme forgiveness	Long and straight shots on off-center hits

Effective MOI (eMOI) is the positive influence on ball speed on off-center hits that's exerted by the combined effects of a driver's MOI and clubface technology (versus constant-thickness clubfaces). eMOI in TaylorMade drivers is dramatically higher, and more valuable in terms of its affect on ball speed, than MOI alone, owing to the benefits of TaylorMade's patented Inverted Cone Technology.
