

RBZTM MAX

Our Longest Iron Ever

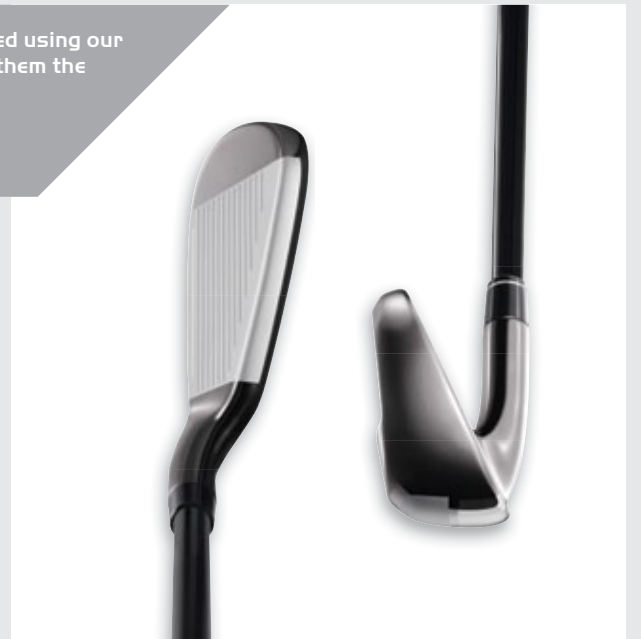

“Every RocketBallz Max head is hollow and constructed using our pull-face metalwood construction, which helps make them the longest irons we’ve ever developed.”

BRET WAHL
TAYLORMADE SENIOR DIRECTOR
IRON, WEDGE AND PUTTER R&D

- ▶ Pull-face metalwood construction in every head allows ultra-fast face for high ball speed
- ▶ Tungsten sole-weighting lowers and centers CG to promote maximum energy transfer off turf
- ▶ Draw-biased head structure promotes distance-enhancing right-to-left flight
- ▶ New vibration and sound control system promotes satisfying feel and sound
- ▶ Matrix Program graphite shafts in long-irons; KBS Satin steel shafts in mid- and short-irons

SHAFT: KBS Satin 90 - S, R
Matrix Program 55 - S, R, M

GRIP: RBZ Max Winn
