

# RAW SPIN. RAW BEAUTY.

FEATURE	BENEFIT
Raw Face Design	Omitting plating from the face and grooves allows for more precise geometry optimizing spin and feel
ZTP RAW Groove Design	Sharper, Deeper, Narrower Groove, sharper radii engineered for more greenside spin
Thick-Thin Head Design	Mass placement for enhanced feel while optimizing CG location for precise flight
Laser Etched Pattern	Laser etching between the grooves on the raw face creates a rougher surface for more greenside spin
Milled Grind	Milled Grind wedges ensure precision where it matters most. The milling process maximizes consistency, maintaining tolerance levels difficult for a human to repeat
TPU Insert	The TPU insert in the back cavity is designed to provide vibration dampening to create a solid, positive feel at impact
Two Finish Options	Matte black and satin chrome
Low Bounce	Features a narrow crescent shape low bounce allowing maximum green side versatility
Standard Bounce	An all-purpose grind and designed for players that like to rotate the club face open and shut
